		RACES	HF		7.240 LSB 7.250 LSB		7.240 LSB 7.250 LSB		A	Statewide RACES	
5. Special Instructions: Upon the awareness or notification that a communications emergency exists, members of the Dubois County RACES will call into the Dubois County Emergency services net on the DR-2X Yaesu System Fusion 147.195 FM RACES repeater with 146.520 FM simplex serving as a backup. The communications mode employed (FM/analog or C4FM/digital) is at the discretion of Dubois County EMA. If the Yaesu System Fusion repeater goes down, the backup Icom FR3000 repeater will be activated as quickly as possible supporting FM/analog communications only. RACES communications with the Indiana Department of Homeland Security will be conducted on the HF frequencies noted above or via linked VHF/UHF amateur radio repeater systems if they are available.
