Meetings & Events

IMPORTANT ANNOUNCEMENT

Following the recent installation of our new 147.195 MHz Yaesu System Fusion DR2X repeater, and after considerable planning and coordination, the Dubois County Emergency Management Agency will continue to use FM/Analog for much of their Skywarn communications. However, when strong to severe storms arrive locally, we will be using reliable, noise-free C4FM/Digital to more effectively communicate with our local EMA/Skywarn personnel. We are also streaming our repeater audio (both C4FM/Digital and FM/Analog) 24/7 over Broadcastify and Scanner Cell Phone Apps opening up world-wide access to our communications. During day-to-day operation, our repeater remains open for normal use by all amateur radio operators in whatever format they choose.
